

Client: Sunday Times & Real Radio Scotland

Agency: panelbase.com

Universe: Adults resident in Scotland

Methodology: Online panel

Sample size: 1008

Fieldwork dates: 26 January - 1 February 2012

Weighting: All the results were weighted by age, sex, household tenure and SEG. The Holyrood voting intention tables were further analysed in two ways:

- Respondents who voted in 2011 were weighted back to the actual result
- Respondents who did not vote in 2011 but who said they were very likely to vote next time (8-10 on a 10 point scale) were added to the people who did vote, to produce the final results.
